Release Date: 10th December 2013
Formats: Digital
Cat #: KTX003
Label: King Tree
Distribution: Morr Music Distribution GmbH
Info & Press: www.ryanteague.com

Artifacts 1-4 is the first in a series of EPs from Bristol based composer and producer Ryan Teague focusing on source material derived entirely from analogue, vintage and found sources. Echoes of strings, found recordings, vintage synths and static are woven together to produce unified compositions which appear almost timeless. As well as harking back to some of Ryans more ambient earlier works such as *Six Preludes*, these pieces also demonstrate a fresh, organic and exciting direction.
